## FORM PERMANENT H.S. ALUMNI ASSN.

DR. KARL MALOTTE ELECTED PRESIDENT OF ORGANIZATION.

## MANY ATTEND BANQUET

Interesting Program and School Day Reminisecnces Given.—About Seventy-Five Present.

A permanent organization of alumni of the Maryville High School was formed last night at the banquet of the former graduates held last night in the girls gymnasium rooms of the High School.

Aout seventy-five, including members from most of the classes sent out from the school and of the senior class which graduates this coming week, were present. The banquet program included an address by the president of the alumni, Dr. Karl Malotte, Dr. Jesse Miller, Jr., John Spickerman, the oldest graduate present and a member of the class of 1888, the second one to be graduated from the school, Miss Laura Hawkins, L. E. Zeigler, principal of the High School; Bruce Montgomery, Clarence Cook, Mrs. Bruce Montgomery and Perry Eads president of the 1920 class. After the talks a mock trial was held with Perry Eads as the defendant on a charge of stealing his "exams." This afforded considerable amusement for every one and made a jolly ending for an evening devoted to school fellowship talks and reminiscences of former school days which was very pleasant for every one attending.

The alumni association was temporarily organized about two months ago with Dr. Karl Malotte, president. At a business meeting held last night permanent officers were chosen as follows: Dr. Malotte, re-elected president; John Price, Jr., vice-president; Clarence Cook, secretary-treasurer; Bruce Montgomery, Miss Laura Hawkins, Miss Ruth Bookman and Cliff Hull, members of the board of control. It was the enthusiastic desire of every one present last night that the Alumni be kept up and the annual banquet be made a gathering that will become one of the most interesting events of the school year.

## WALKED FROM ILLINOIS TO MARYVILLE 50 YEARS AGO

John B. Cox Arrived Here May 15, 1870, and Has Made His Home Here Continuously Since.

Today is one of interesting recollection to John B. Cox, who arrived in Maryville fifty years ago, landing here the morning of May 15, 1870.

"Flivvers" had not even been whispered about in those days and walking was the most common mode of travel. Mr. Cox's home was in a small eastern Illinois town and when he started out to see the world, he walked the entire distance from his home to Maryville. At that time only a few buildings were here and with the exceptions of one or two, they were all frame structures. Young Cox went to work as a harness maker at wages of $1 per month and his board. After a time he purchased a frame building on the north side of the square, standing where the Arlington block now is. Later Mr. Cox put up a brick building which was the first brick in that half of the block. Since that time he has built several store buildings.

During this fifty years Mr. Cox has kept a permanent residence in Maryville.

## THE FROSTS CELEBRATED GOLDEN WEDDING ANNIVERSARY

Former Residents of Maryville Held Celebration at Redondo Beach, Calif.

Mr. and Mrs. W. B. Frost of Redondo Beach, Calif., celebrated their golden wedding anniversary on Wednesday, April 28. Mr. and Mrs. Frost are well known in Maryville, formerly being residents of this city and are the parents of B. A. Frost of Maryville. The following account of the anniversary is taken from the Redondo Reflex:

Wednesday was a most important date in the family history of the W. B. Frost home for a number of reasons. It was the golden wedding anniversary of Mr. and Mrs. Frost. It was a reunion between two brothers that had not met for nearly a quarter of a century and it was the occasion for a most elaborate family affair.

At 3 o'clock a dinner was served in a gold and white setting. White carnations and golden marigolds with greenery and oranges were used. A bountiful dinner was served. To enumerate the various things that went to make a splendid time would be difficult, but the important date was well remembered in every detail by the children and friends present. The honorees were presented with a number of beautiful presents, including several personal ornaments of gold and a large stack of gold pieces.

The two brothers who had not met for so long were Cecil H. Frost, who came south last year after a long sojourn in Alaska, and Everard C. C. Frost, who arrived just this week from Manilla. He has been expected for some time but business delayed his trip. His family proceeded him by some months.

Mr. and Mrs. Frost, Sr., have been residents in Redondo Beach for a number of years and with their daughter, Miss Gertrude, have become well known. Mr. Frost is in the grocery business.

Others who were present Wednesday to enjoy the day and aid in the celebration were Mrs. M. B. Folsom and Mrs. A. F. Horner of Santa Monica, sisters of Mr. Frost, Mr. and Mrs. E. M. Wright of Long Beach, Mrs. William Kerfoot and Wayland Wood of Santa Ana, and Mrs. Julius Kutnow.

Another item in the Redondo Reflex was as follows:

The usual meeting of Carnation chapter, Order of Eastern Star, which was held at the Masonic hall Tuesday evening was unusually enjoyable. A class of two candidates was given the initiation ceremonies, including Mrs. Alice Bartee and Miss Bertina Agge. Mr. and Mrs. W. B. Frost and daughter, Miss Gertrude Frost, who were members, transferred their affiliations to the local chapter. As a whisper had told the chapter members that their new associates, Mr. and Mrs. Frost, would celebrate their golden wedding date on Thursday a special event was arranged in their honor. They were escorted to the worthy matron, Mrs. Lottie E. Montague, who with a few well chosen words presented them with a bouquet of fifty white carnations tied with huge streamers of golden hued tulle. The honorees were much surprised.

After the meeting refreshments were served and a jolly social hour was enjoyed.

### BOY SCOUTS HOLD TRAILING CONTEST TODAY.

The Boy Scouts had a trailing contest today, held to familiarize the boys in signal work. About eight prizes have been offered by Scout Master M. A. Peery and the judging is done by points.

At a meeting of the Boy Scouts held last night, the Scout base ball team announced their readiness to play ball with any other team who want a game. The boys have a good team with Harold O'Banion, captain, and have putting over some good practice games and are in first class playing trim.

### ATTEND DOUGHERTY BURIAL SERVICES AT OMAHA TODAY.

Mrs. J. O. Dougan of Bolckow and her niece, Mrs. Beulah Bennett, left this morning for Omaha to attend the funeral services of Mrs. Dougan's cousin, Joseph E. Dougherty, which occurred Thursday. His death is thought to have resulted from an accident. Mrs. Dougan came to Maryville last night from Bolckow and spent the night at the home of her sister, Mrs. C. A. McCoppin.

## TO TAKE A FARM CENSUS JUNE 1

ASSESSORS WILL DO THE WORK AT THAT TIME.

## STATE BOARD IN CHARGE

Questions Will be Limited to the Canvass of Actual Acreages in This State.

The Farm Census questions for 1920 (which begins on June 1st) will be limited to the canvass of actual acreages in Missouri. The work will be easier for the county and township assessors than last year.

To the person who asks "why do you gather a farm census this year since the federal government collected one in January" the answer is that the federal government made its investigation wholly on the 1919 crops, and this state census will be exclusively regarding 1920 crops. Besides, the State Board of Agriculture expects to publish its 1920 census figures as soon or sooner than the United States government will issue its 1919 crop figures.

The new list of questions for 1920 the blanks for which the assessors will receive within the next few days, are full of interest to every farmer and business man. County agents, Farm Club members, Farmers' Union, Grange, and Farm Bureau folks have been anxious for weeks to find out the state secret of what the 1920 farm questions would cover. The 24 questions and instructions are here and now announced, as follows, as used by all assessors, beginning on June 1:

Name and Address.—The name, post office and R. F. D. number of the owner, renter, occupant, or person operating farm.

1. Corn.—Total of all acres planted to corn (including silage, grain or fodder).

2. Winter and Spring Wheat.—Includes both "spring wheat" and "winter wheat" on acreage harvested or expected to be harvested in summer of 1920. Where wheat crop was "winter-killed" or for any other reason plowed up and planted to other crops that acreage in wheat will be shown in crop, last planted. Only wheat for 1920 harvest is listed—and not wheat sowed in fall for 1921 harvest.

3. Oats.—Includes all oats sown both for grain, for hay, or to be fed in sheaf.

4. Rye.—Includes that sown for grain or for hay feed. Where rye was plowed up this spring and planted to some other crop, that acreage will be reported in the new crop instead of rye.

5. Barley.—This crop is increasing in several Missouri counties.

6. Irish Potatoes.—All patches of potatoes as large as one-fourth acre must be listed.

7. Tobacco.—If plants are not all set out in early part of assessing season the acreage intended to be planted will be listed. This rule applies to any and all other crops not yet planted or finished planting or setting out.

8. Cotton.—This inquiry applies mainly to our 12 cotton counties.

9. Cowpeas.—List acreage planted alone for seed, silage or hay, but omit if grown with corn.

10. Soybeans.—Same rule as cowpeas.

11. Sorghum for Sirup.—List only the acreage planted for making sirup. (See No. 12.)

12. Kafir, etc.—Includes kafir, feterita, milo maize, sudan, and all other grain and sweet sorghums for forage and not intended for sirup.

13. Clover and Timothy for Hay.—All kinds of clovers and timothy, whether alone or mixed, cut or intended to be cut for hay in 1920. The meadow not cut for hay this year but used for pasture is listed as "pasture." List new meadow if it belongs

## NO COLORADO SUGAR MAY BE SHIPPED OUT OF STATE

Pleas Schmidt Writes Democrat-Forum to Answer Many Inquiries From Maryville Friends.

C. P. Schmidt of Eckley, Colo., former county judge, who is now proprietor of the Eckley Feed and Grocery Company, has written to the Democrat-Forum, asking the paper to state, for the answer to many inquiries made him, that it is impossible for Mr. Schmidt to ship any sugar out of the state of Colorado. In his letter Mr. Schmidt writes:

"I wish you would say to all my old friends through your paper that it is impossible for me to ship any sugar out of the state. I have been receiving telegrams and letters almost every day for sugar and I find it impossible to answer all of them. If some of my old friends that can't get sugar, will move to Colorado, they can buy it here, all they want for $16.00 per cwt. In the language of the Denver Post, it is a privilege to live in Colorado."

## CURLEE CITES REED SPEECHES

ST. LOUIS ATTORNEY HEARD SENATOR CONDONE SINKING.

## UNIVERSITY CITY SPEECH

Reiterates Charges That Senator Reed Does Not Represent The Party.

Col. Francis M. Curlee, the accuracy of whose statement in a speech before the Democratic State Convention in Joplin that Senator Reed had condoned the sinking of the Lusitania by Germany was denied by the Senator in a formal statement Wednesday, today replied to the Senator.

Curlee in a signed statement repeated his charge and quoted from newspaper reports of speeches the Senator delivered, one of which Curlee said he heard. He said that Reed's fragmentary quotations from speeches to indicate he had denounced the sinking of the Lusitania were "carefully chosen."

Curlee said he heard a speech delivered by Reed at the Park Hotel in University City, June 12, 1916. "It was then respectable to attend Reed dinners," he said, "and I offer no apology." He quotes from a newspaper report of Reed's speech as follows:

"He said that neither England nor Germany had maliciously taken an American life. He said it was a case of an innocent bystander being struck by a stray bullet in a fight between two friends."

"If that is not the language of condonation I am guilty of misuse of words," Curlee said. "I did not charge that he applauded the devilish Lusitania murder. Even the German-American Alliance did not dare do that."

Curlee then quoted from a report of a speech Reed delivered in Milwaukee Jan. 11, 1916:

"These people are not assassins, and no king, kaiser or power could ever force the German people into a mere marauding expedition having for its object national loot. You may cry Belgium. Was Belgium not invaded? I answer yes; but Belgium was not invaded for robbery; she was overrun because she lay in the path Germany believed she must tread if she succeeded in the mighty contest she was waging with France."

"I now charge that he condoned, palliated and defended the invasion of Belgium," Curlee said. "Will he deny that or will he explain it?"

"The condonation of German crimes on the high seas was only one count in my indictment of Reed. I charged that he opposed the passage of the conscription act, which of all of the acts our government was the one which was indespensable to the winning of the war. Does he deny that?

"I charged that he fought the food administration, which ranks second in importance of all of our war measures. Does he deny that?

"I charge that he has opposed the president at every step and turn in negotiating peace since the armistice was signed. Does he deny that?

"I charge that he not only opposed the peace treaty, but that his opposition has reeked with calumny and malice. Does he deny that?

"I have repeatedly charged and I now charge, that in his flagrant, persistent and malicious opposition to the administration and to the ratification of the peace treaty, he has misrepresented and does now misrepresent the will of his Democratic constituents. He has repeatedly denied that. Since the action of the Joplin convention will he still deny it?

"Personal abuse by Reed of me and of all others who disagree with him can never erase the indelible stain that is on him for pandering to alien sympathies before the war, for tending to hamstring our military operations during the war and for trying to rob us of the fruits of victory after the war."

## SENATE WILL VOTE ON THE KNOX RESOLUTION TODAY

Measure Will Pass by a Comfortable Majority, It Is Predicted—It Is For Separate Treaty.

Washington, May 15.—By unanimous consent the senate will vote on the amended Knox peace resolution at 4 o'clock this afternoon, and will pass the measure by "a comfortable majority," it is predicted by the Republicans. The elimination from the resolution by Senator Lodge of the request that the President negotiate separate treaty with Germany will solidify the Republican support with the exception of Senator McCumber of North Dakota, "the mildest of mildest reservations." Following the expected passage by the Senate the measur will go to the house and will be formally referred to the foreign affairs committee of the house. The Republican leaders are planning to force a vote by the end of next week.

### Blames Former Administrations.

Washington, May 15.—The alleged lack of preparedness of the navy force during the war is a result that lies more at the door of the secretary of navy preceding the Wilson administration rather than the present regime, Secretary Daniels charged today before the Senate. He specifically mentioned the administrations of Roosevelt and Taft, charging that the navy fell from second to third place compared with the navies of Great Britain and Germany during their administration.

### Mrs. Montgomery Home.

Mrs. W. J. Montgomery returned this morning from a seven weeks visit at the home of her brother and his wife, Mr. and Mrs. Court Toel of Little Rock, Ark. Mrs. Montgomery was accompanied home by Mr. and Mrs. Toel and enroute here stopped for a few days visit in St. Louis.

### RECONSTRUCT MAN'S FACE WITH RUBBER FEATURES.

San Francisco.—One of the most remarkable cases of facial reconstruction ever successfully carried out in this country has just been brought to the attention of the medical world through the San Francisco District Medical Society.

Charles Niesen, forty-five, a victim of a mysterious disease resembling cancer, through a half dozen operations to check the progress of the disease, lost his nose, his upper lip, and the greater portion of his cheeks. The flesh and tissue were removed to the bone. Niesen was unable to appear in public and subsisted on liquids.

Now Niesen has a nose, an upper lip and cheeks which at a short distance away appear entirely natural. He is able to eat food of any kind. The change was wrought by a wonderful piece of maxillo-facial reconstruction by Dr. Max Wassman. Rubber was used to make the new features.

## OF INTEREST TO WOMEN

**This is a Short Letter, but it Brings a Message of Importance to every Woman.**

Woodford, Vt.—"I took Lydia E. Pinkham's Vegetable Compound and Liver Pills before my child was born and it did wonderful work for me. My baby weighed eight and one-half pounds when born and I did not suffer many pains. You can publish this letter if you wish for I would not be without your medicine before child birth."—Mrs. JOHN LIMOGI, Woodford, Vt.

The reason why Lydia E. Pinkham's Vegetable Compound is so successful in overcoming woman's ills is because it contains the tonic, strengthening properties of good old-fashioned roots and herbs, which act on the female organism. Women from all parts of the country are continually testifying to its strengthening, curative influence, and as it contains no narcotics or harmful drugs it is a safe medicine for women.

### ENGLISH MERCHANTS AFTER TRADE IN CUBAN MARKETS.

London, May 15.—Hhe Manchester Chamber of Commerce proposes the establishment of direct steamship communication between Manchester and Cuba, according to reports received by the American Chamber of Commerce here.

Prior to the war Germany was industriously cultivating the Cuban market. German houses furnished elaborate samples and gave extensive credits. The British manufacturers are said to have awakened to the realization that American merchants are working on the same lines and a determined effort is to be made to secure the Cuban market for British goods.

It is also stated that part of the program for taking the Cuban trade will consist of trade literature printed in Spanish and giving the prices in dollars wherever possible.

The table was placed in triangular shape and a blue streamer running in the center of the table carried out the color scheme of blue and white which are the colors of the Y. W. C. A. Arranged at one end of the table was a small blossoming apple tree and other spring blossoms and flowers were used in decorating. Invocation was made by a guest, Rev. R. H. Roelofson of Chicago. Following the breakfast, an interesting program was given. The "Address of Welcome" was made by Pres. Ira Richardson. **IS IT POSSIBLE!**

"Don't be so cold," he screamed at the other man. ("I'm not jealous! Kiss her as though you meant it!"

Sounds good, doesn't it? But coming as it does, it sounds a little strange for the man who wants "her kissed as though the kiss was meant" is her husband and the man who is kissing her is the most famous "kiss artist" in the kissing business.

But, after all, there is nothing so scandalous or shocking about this one man having his wife kissed by another for he is one of the most famous motion picture directors in the business and his demure little wife is supporting Eugene O'Brien in his second big Selznick Picture, "Sealed Hearts."

Ralph Ince is the director and his wife, known to the screen as Lucile Lee Stewart, is the leading lady. The star and the director's wife were enacting one of the stirring love scenes in this remarkable drama and the director, whose middle name is "realism" was dissatisfied with the star's osculatory attacks upon his wife and he would not accept the scene as finished until the couple had put all the fervor and feeling into the kiss that he himself probably had displayed on many such occasions.

When asked how it felt to boss one's wife in a love scene with another man Director Ince said: "When Lucile and I come into the studio in the morning, by mutual agreement we forget that we are man and wife. I am the director and she is one of the players, and it is my business to get the best out of my people and it is their job to work with me to the best of their ability. It is only when we start home that we again take up our martial ties."

"Sealed Hearts" is a stirring story of love and romance and will be the feature attraction at the Electric Theater tonight.

**AUTOMATIC DEVICE FEEDS CHICKENS AT SET HOURS.**

Hastings-on-Hudson, N. Y., May 15 — Francis P. Graef, who occupies a residence on the Chrystie estate here, has hit upon a device for feeding young chickens that fixes their meal times right to the minute. The feed is placed in an elevated box and a slide is arranged in the bottom. A string is fastened to the slide and tied to the key of a big alarm clock. The clock is set for a certain hour, and when the alarm goes off it winds up the cord on the key, thus tightening the cord and pulling out the slide from the bottom of the box, releasing the feed, which pours over a pyramid shaped elevated structure. The pyramid scatters the feed around for the chickens.

The device, not having been patented by Graef, is still free to all the world.

### Alleged Strawberry Shortcake.

One of the most pernicious heresies of our time is the making of the so-called strawberry shortcake which is not shortcake at all, being made with sponge cake. Restaurants which otherwise have a high culinary standard are guilty of this practice which spoils good strawberries and wastes good cake. The shortcake of our mothers was a crisp, tasty shell of biscuit dough. Sandwiched with the appropriate berries and seasoned with cream and sugar, it was a dish incapable of being improved upon. Compared with it the strawberry sponge cake of today is a sweetish, soggy mass. Such stuff should not be permitted to masquerade on menus as shortcake, any more than pale and imperfectly boiled beans should be permitted to pose as "Boston baked."—Post-Dispatch.

### MACY WORTH WELL PLEASED WITH WYOMING COUNTRY.

M. G. Worth, a former resident of Nodaway county, now living in Wyoming, writes that he and his family are well pleased with their new home and although it has been quite cold in the section in which they live, it is not the damp, heavy cold experienced here. Mr. Worth has 480 acres of sub-irrigated land on which he is growing 90 acres of alfalfa and 200 acres of native grass. Wheat, corn and oats grow there to perfection. Last year the crops were excellent except on the uplands, which were drought stricken. The lack of hay caused the ranch men to turn their cattle and sheep out early and that was the reason so many were caught in the Easter blizzard.

## MISSOURI UNIVERSITY TO AID CAUSE HARD-SURFACED ROADS

### College of Agriculture Will Represent the University in State Good Roads Federation

Columbia, Mo., May 15. — Another step toward getting Missouri out of the mud and farther along in the use of hard-surfaced highways was taken at a recent conference in Excelsior Springs of the Missouri Good Roads Federation. Governor F. D. Gardner presided at the meeting, which was attended by representatives from the congressional districts and educational institutions of the state. Dean F. B. Mumford of the College of Agriculture will represent the University of Missouri in the federation, and Prof. A. J. Meyer, director of the agricultural extension service, will represent the Farm Bureaus. It is planned to urge the issuance of bonds of $60,000,000 for road improvement in Missouri.

The movement is of special interest to the University of Missouri because Governor Gardner gave it its first prominence at the annual Farmers' Week, held here in January. The recent organization at Excelsior Springs is the outcome of the work begun at that time.

### COLLEGE ATHLETES TO ENTER INTER-COLLEGIATE FIELD MEET.

Ralph Vehle and Bill Richards of the State Teachers College, accompanied by Coach Robert Rice, will go to Cameron to enter the Inter-collegiate track and field meet held there next Saturday under the auspices of Missouri Wesleyan College. Contestants from all colleges in Missouri will be entered.

### Plan R. R. Cafeterias.

# WILL PRICES COME DOWN? NO CHANCE

### HOG PRICES MAY DROP, BUT BACON REMAIN EXPENSIVE.

## BIG GAMBLE WITH FOOD

### Government That Can Lick the Hun Should be Able to Handle Conspirators at Home.

Washington.—I hate to destroy anything good, especially hope, for hope is the greatest influence for good which God in his wisdom put upon earth.

But, people, there is about as much chance of your hope of a materially lowered cost of living coming true in the near future as there is of an immediate millennium.

Senator Arthur Capper, of Kansas, has no such illusion. Nor has any other really informed member of Congress. Folks here, who have the inside track on what is going on, admit that such members of the government as are talking of cheaper living are either taking the wish for the deed, or are believers in miracles.

Senator Capper, who boasts he cannot make a speech, is the only member of that august body with the gift of silence, but the flow of ideas from that genuinely superior brain of his is not lessened an iota by reason of it. When he sits down in front of his typewriter he can play it like Paderewski does a grand piano.

Out in Kansas he has a number of newspapers, and he writes for them all. One of them is "Capper's Weekly," wherein, once a week, one can read the notes composed by Senator Capper on the keyboard of the instrument of his choice.

"Hogs," says the Senator's paper, "raised to feed Europe, dropped to $11 and $11.50 at Missouri River markets last week.

"But good bacon still costs the consumer 60 cents a pound, the same price that was being asked for it last June when farmers' hogs sold for twice as much."

There's the whole thing: If the word gets out today that next month the price of pork on the hoof is going to be a cent a pound higher, the cost of pork at the butcher's goes up five cents a pound today. But with the price of pork on the hoot today one half what it was a year ago, the cost of pork at the butcher's remains the same as it was or even a little bit more.

"The food gamblers and profiteers," says Capper's newspaper, "loud-mouthed, self-possessed champions of law and order and 100 per cent Americanism—these greedy men, as spoilers, agitators and trouble-makers, are a thousand times more potent for harm than all the reds in or out of Russia. The situation demands sincere activity by this government against its enemies — the profiteers and food gamblers.

"A government that can lick the Hun 4,000 miles from home should be equal to a few hundred or a few thousand arch-price conspirators here at home.

"The Secret Service which, during the war, ran rings around the German spy system could get these spoilers on short notice. Evidence of the misdeeds is not lacking.

"Vocal war against profiteering is unavailing.

"If the Department of Justice will come to grips with the gougers, it will do more to stop strikes and restore peace and order and good feeling to the United States than all the speeches and propaganda ever uttered or printed. Let action speak."

Capper says we forbid gambling with cards, but we do not forbid gambling with sugar.

"We are told that the refineries are unable to provide for the enormous new stocks of sugar," but a corner in sugar is formed right under our eyes.

And so it goes.

The Republican Convention opens in Chicago during the first days of June. The Democratic Convention begins at San Francisco the last of June. From now until the Conventions Congress will keep on with its game of passing the buck for fear of hurting the chances of individual members for re-election, or the party's chances in the coming campaign.

During June there will be a recess, in all probability, so that Congress can attend the conventions. So there can be no work in June.

After June, should Congress convene again, it will go on marking time lest one or the other of the two parties, by some act, blunder and lose the election in November.

So do independent observers look at things here.

Now turn back and re-read the first two paragraphs of this humble item.

# Your Financial Affairs

may be easy for you to look after, but will your family be able to make profitable investments and attend to all the management of the estate after you are gone?

This isn't a pleasant subject—but it's a necessary one and every man who expects to leave his family a competence in case he is suddenly taken out of this life should make provision for its proper care and handling.

That is the service of a Trust Company. You can consult with its officers about the proper way of making your will and leaving your estate so that it will be properly administered.

It is something that should not be neglected—come in and talk with us about it.

## the Multi-motor

is really a better machine for farm washing than the Electric would be, because it can be taken any place in the house, out on the porch or even out in the yard. Its self-contained little gasoline motor will purr away wherever you set the machine, and besides doing the washing it can be used for running the separator, the churn, or any light machine.

Be sure to see the Multi-Motor Maytag before you buy a power washing machine.
